- ✓ **Teamed up with** the right accessories and attachments, it is your trusted friend for organic, chemical free weed control.
- ✓ **Safe** to be used around your people, organic produce and animals.
- ✓ **Reliable and trustworthy** for years of continuous, every-day use.
- ✓ **Improved functionality** and tested through multiple pilot projects.

Model Specifications:	SW2100
Satusteam™ Volume	20-25L / min
Satusteam™ Pressure (in heat exchanger)	35 Bar (500 PSI)
Satusteam™ Pressure (on delivery)	2-4 Bar (30-60 PSI)
Satusteam™ Temperature:	118°C (250°F)
Water Pump	
Open Flow	55L / min
Max Pressure	40 Bar (580 PSI)
• Triple diaphragm PTO Drive Pump • Adjustable Pressure Unloader	
Diesel burner (12V)	
Fuel Consumption	14 L / hr
Fuel Tank Capacity	50 L
BTU Rating	550000 Btu
Fuel Oil Solenoid	Standard
Exhaust Stack	200mm

*Note: the consumption figures are a guide-only.

Key Highlights

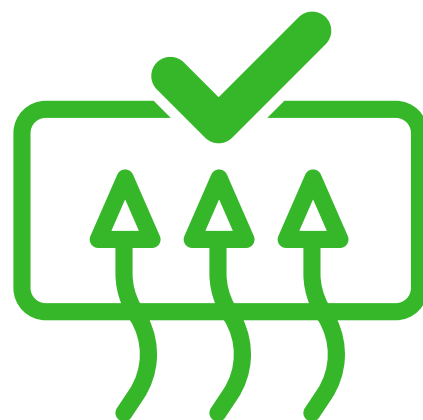

Built for intensive horticulture

Ideal for weed control in intensive horticulture, where continuous flow of delivery from a vehicle mounted (tractor or trailer) applicator head is required. The SW2100 can operate single or dual rowtech head(s) and an orchard head upto 1.2m width, single side.

Easy Satusteam™ Delivery

The cool-touch lance is light weight, easy to handle. Coupled with the wheel kit, the lance is easily manoeuvrable. You can reach those nooks and crannies with just a feather-touch push!

No spray drift, no worries!

Weedtechnics applicator heads are carefully engineered to have the maximum effect of Satusteam™ on those annoying weeds. All the white clouds you create are just chemical free steam. It is even safe to use your treated area immediately.

Feel empowered

Weed control with a Satusteam™ machine gives you more time in your hands to dedicate to the things you love. Keep those pesky weeds at bay without breaking your back or stressing your arms!

What's your Satusteam™ solution?

We specialise in creating 'bespoke solutions' for weed control. We listen to your weed problems, analyse your concerns and design a custom solution that is special for you. With top-notch customer service and technical support, you are in for a life-changing experience. We recommend undergoing safe operations, maintenance and productivity training for 1st time machine owners.

Our patented Satusteam™ technology offers a safe zone for everybody - far removed from the obvious harmful effects of poisonous herbicides. Research confirms that Weedtechnics Satusteam™ weed control systems are 3x faster than hand weeding and leaves no toxic residues.

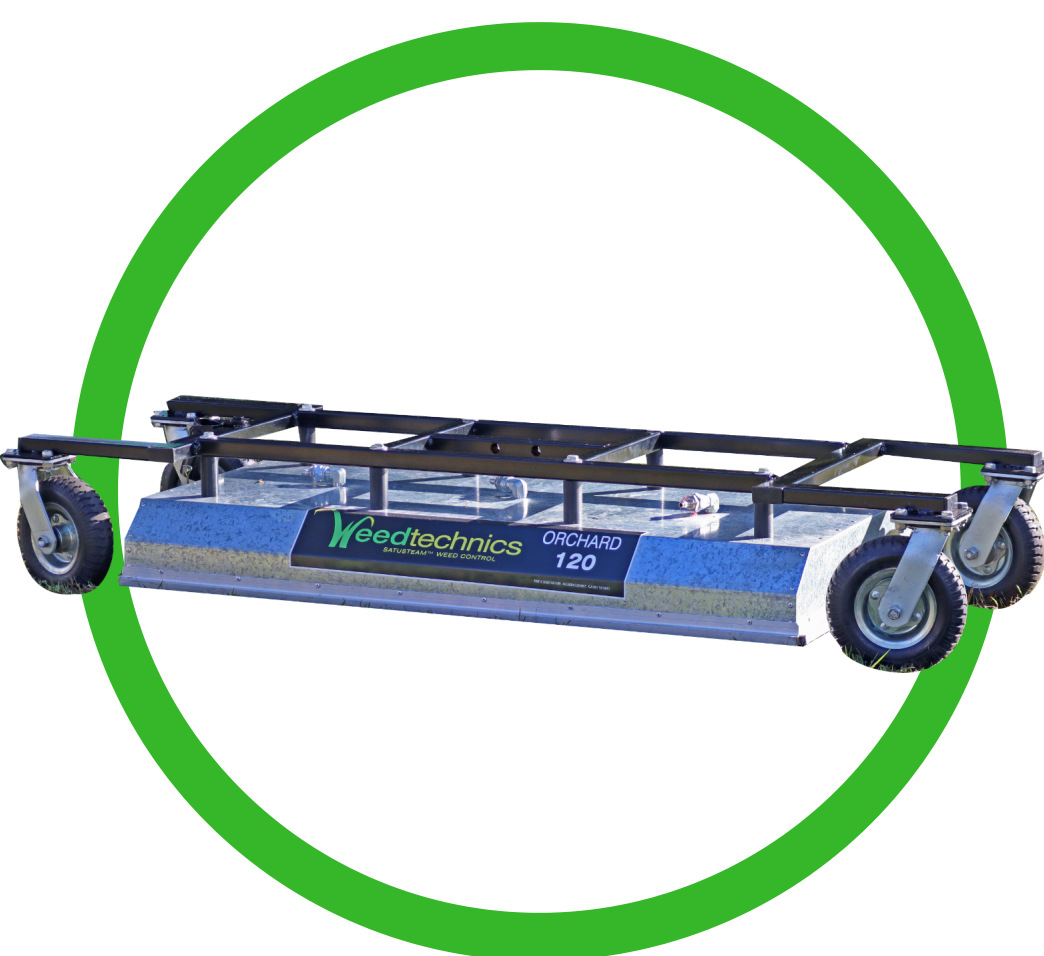

The SW2100 Options:

Custom trailer - the 'Sumo'

Order a customised trailer perfectly fitted for the SW2100, 4000 litre tank, inlet & outlet reels, hoses & gun. It is the complete, ready-to-go package.

Orchard Head & hydraulic arms

The SW2100 has the ability to run the Weedtechnics Orchard Head & hydraulic arms, perfect for treating orchard rows. The hydraulic arms give the ability for the Orchard Head to move in any direction necessary, allowing you to get extremely close to the base of the trees, and conquer any obstacles that get in the way. The result, a massive increase in efficiency.

The City of Fremantle has used non chemical weed control for a number of years now and Weedtechnics has been the successful tenderer for the past 3 years. The City has had experience with a number of machines with limited success until the Weedtechnics range was brought to Western Australia
