Water Usage:	600L / hr
Petrol Pump Motor:	1.9L / hr
Diesel Burner:	7.5L / hr
Weight:	160-230 kg

*Note: the consumption figures are a guide-only.

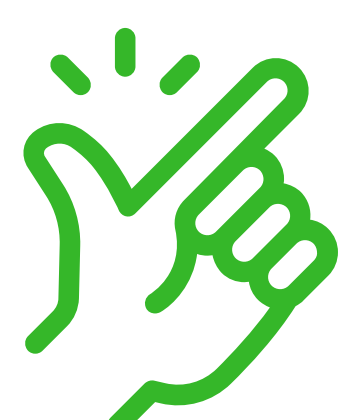

The SW900 is one of the most efficient thermal weed control machines out there. Our patented Satusteam™ technology offers a safe zone for everybody - far removed from the obvious harmful effects of poisonous herbicides. Research confirms that Weedtechnics Satusteam™ weed control systems are 3x faster than hand weeding and leaves no toxic residues.

Key Highlights

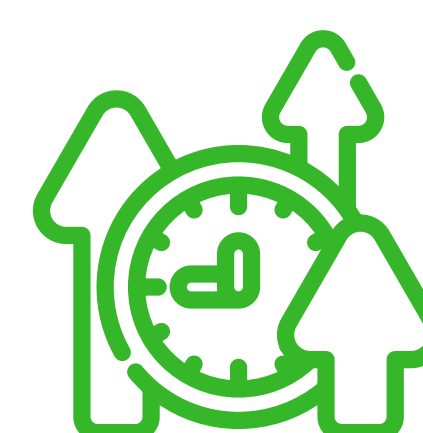

No spray drift, no worries!

Weedtechnics applicator heads are carefully engineered to have the maximum effect of Satusteam™ on those annoying weeds. All the white clouds you create are just chemical free steam. It is even safe to use your treated area immediately.

Easy Satusteam™ Delivery

The cool-touch lance is light weight, easy to handle. Coupled with the wheel kit, the lance is easily manoeuvrable. You can reach those nooks and crannies with just a feather-touch push!

Increased efficiency

Designed to deliver 10L of Satusteam™ per minute, this machine has the ability to handle 2 applicators working simultaneously.

Feel empowered

Weed control with a Satusteam™ machine gives you more time in your hands to dedicate to the things you love. Keep those pesky weeds at bay without breaking your back or stressing your arms!

What's your Satusteam™ solution?

We specialise in creating 'bespoke solutions' for weed control. We listen to your weed problems, analyse your concerns and design a custom solution that is special for you. With top-notch customer service and technical support, you are in for a life-changing experience. We recommend undergoing safe operations, maintenance and productivity training for 1st time machine owners.

All Satusteam™ machines can be fitted on a skid or arranged on a trailer. **Ask your Satusteam™ expert for more information.**

(VCH 60)

Versitech
Open Head
(VOH)

Pressure
Cleaning
Nozzles

Up to 90m
Insulated Hose
with Clip-on
Cover

Cool-touch
Lance

“We believe there is no need to drench the footpaths, traffic islands, curb lines and other engineered surfaces in our community with toxic herbicides. We can provide viable, non chemical weed control solutions which don't play havoc on our environment or our health.”
